

ekey finger scanners
Door set solutions for industry + trade

” *After hundreds of years of service, the key has served its time – now you literally have the future in your hands!* “

Turn your house into a truly smart home with ekey

A fingerprint system combines design, convenience, and security.

Good reasons to choose an *ekey fingerprint scanner*:

UNRIVALED CONVENIENCE

Impossible to lock yourself out, as your finger is always on hand!

MAXIMUM SECURITY

- No lost or stolen keys!
- Maximum protection against forgery thanks to live finger detection with RF sensor technology!
- Impossible for access authorization to be passed on (with a card, code, or key, for example)!
- 1,000 times more secure than a 4-digit code!

USER-FRIENDLY

Easy installation and administration!

INTELLIGENT SOFTWARE

The ekey software is constantly learning – it can detect the growth of children's fingers as well as minor injuries and changes to users' habits.

CONNECTION TO BUILDING CONTROL SYSTEMS

Customized scenarios can be triggered using the ekey fingerprint access control system.

5-YEAR QUALITY GUARANTEE

For all ekey products!

Made in Austria

ekey
Because innovation is paramount!

Europe's No. 1 for fingerprint access solutions

As a manufacturer and developer, ekey covers the whole spectrum.

More than one million satisfied customers are the best possible recommendation for our products! For many years, both private households and leading companies alike, along with organizations such as fire and rescue services, have been putting their trust in proven *ekey* finger scanners.

ekey was founded in 2002 and is now Europe's No. 1 for fingerprint access solutions. ekey puts authorization into the customer's hands! Keys, cards, codes, etc. can be lost, forgotten, or stolen. "Your finger is always on hand!" ekey's wide range of products includes finger scanners for doors, gates, alarm systems, and time recording.

The international company currently has over 90 employees at its 5 locations in Austria, Germany, Liechtenstein/Switzerland, Italy, and Slovenia, and exports its products to over 70 countries, which makes up 73% of its business. ekey's main sales markets include Spain and the USA, in addition to Austria, Germany, Switzerland, Slovenia, and Italy.

QUALITY

All ekey products undergo a rigorous endurance test before they reach the market. The test involves intensive simulations of blazing heat, biting cold, and high humidity; each finger scanner, along with all of its components, is subjected to these conditions countless times before reaching the customer.

Our formula for quality consists of the highest standards of functionality, reliability, and security, which are refined through extensive testing.

Quality-tested products from ekey – you can count on us!

CERTIFIED QUALITY MADE IN AUSTRIA:

- Extensive production, manufacturing, and functional testing (zero tolerance)
- Testing for environmental and temperature resistance
- Vibration and shock-tested
- Tested for penetration of water and mechanical parts
- Quality management system in accordance with EN ISO 9001:2015
- CE-compliant

arte

With its compact design, the *ekey arte* is ideal for flush installation in door leaves, door handles, and fittings.

integra

Due to its slim installation depth, the *finger scanner integra* is the ideal solution for integration in and next to doors.

integra keypad

The ekey code pad – an alternative to the finger scanner or the perfect complement.

ekey home app

Intuitive operation makes administration incredibly easy. More information is available on page 19.

The *ekey home app* is only compatible with the finger scanners *arte* and *integra*.

So many possibilities
ekey solutions couldn't be easier to use.

VERSATILITY

Plastic, aluminum, or wood – ekey is the perfect match for all doors and materials.

EASY INSTALLATION

ekey finger scanner systems are designed to ensure quick and easy installation.

PLUG & PLAY SYSTEM

Plug-in wiring solution for all major lock manufacturers and cable transfers.

SIMPLE MAINTENANCE

Optimal positioning of the elements ensures easy accessibility.

- Unique identification
- Highly innovative technology
- Person-specific configuration
- Access control
- Energy saving
- Accessibility

The networkable door

The right solution for every requirement

ekey multi

Multi-point access solutions

4 finger scanners* are managed by a single control panel.

- Can store up to 99 fingerprints
- Supports up to 4 finger scanners
- Can control up to 4 functions per finger scanner (e.g., door, gate, and alarm system)
- Individually programmable time slots
- Access logging for every finger scanner
- Easy to operate with central user administration directly via the control panel
- User permissions can be assigned on a personalized basis (based on location and time)
- Vacation or permanent program
- Optional: Card access (RFID) is possible -> can also store up to 99 cards

ekey net

Network access solutions

The networkable access solution for companies, organizations, and discerning households.

- Can store up to 2,000 fingerprints per finger scanner*
- Supports up to 80 finger scanners
- Can control up to 4 functions per finger scanner
- Programmable time slots
- Access logging for every finger scanner
- Supports cross-site administration
- Central administration via PC
- Calendar function
- Interfaces for establishing external connections
- Optional: Card access (RFID) is possible -> can also store up to 2,000 cards

*Alternatively: Code pad (keypad) -> can store up to 99 or 2,000 codes

We would be delighted to help you plan and design your professional access control system. Simply contact us at [ekey.net/en/contact](mailto:info@ekey.net).

ekey net video

USER ADMINISTRATION

- Easy to create, manage, and delete users
- Enable or disable users at the touch of a button
- Assign authorizations for defined access
- Store fingers via the app
- Easy administration of up to 99 fingerprints
- Administration of up to 99 RFID cards*

ACCESS

- Open doors via app (smartphone/tablet)
- Assign access authorization with a user code
- Provide temporary access (while on vacation, for example)

SECURITY

- Administrator and user level
- 4 to 6-digit app security code
- Enhanced security thanks to 6-digit coupling code
- Administrator is able to change and administer security codes
- Deactivate the finger scanner's Bluetooth function

USEFUL TOOLS

- Adjustable LED brightness on the finger scanner
- Relay switching durations can be set individually
- Reset the system to default settings

The *ekey home app* is only compatible with the *ekey home – single-point access solutions* system!

* Only in the case of *ekey finger scanner integra Bluetooth RFID*

The following specifications apply to all listed cable transfers:

- Cable: Li9Y11Y, 8 x 0.34 mm²
- Cable length on the leaf side: 0.8 m, with CP35/8 plug at the end for connecting to the control panel

Part no.	Description
100205	ekey PS DRM 230 VAC/12 VDC/2 A; DIN-rail-mounted
100891	ekey PS DRM 230 VAC/24 VDC/2 A; DIN-rail-mounted
100204	ekey PS OM 230 VAC/12 VDC/2 A; outlet-mounted
101742	ekey PS OM 230 VAC/24 VDC/1.1 A; outlet-mounted

Important: Select the power supply based on the properties of the motorized lock.

Uninterruptible power supply

Part no.	Description
101559	ekey UPS DRM 230 VAC/12 VDC/5 A + REBAT 4 Ah, DIN-rail-mounted
	<ul style="list-style-type: none"> • Dimensions W x H x D: UPS: 108 x 94 x 95 mm (6 HP) Battery: 157 x 93 x 66.5 mm (9 HP) • Supply voltage: 100-240 VAC • 2 parts: UPS (switched-mode power supply) and battery • Output voltage, output current: 12 VDC/5 A • Temperature range: -10 °C to 40 °C • Function display: LED • Advantage: Replaces line voltage power supply; ensures a reliable power supply to the system for several hours. Suitable for use in conjunction with a motorized lock.

Part no.	Description
101593	ekey UPS DRM 230 VAC/24 VDC/3 A + REBAT 4 Ah, DIN-rail-mounted
	<ul style="list-style-type: none"> • Dimensions W x H x D: UPS: 108 x 94 x 95 mm (6 HP) Battery: 157 x 93 x 66.5 mm (9 HP) • Supply voltage: 100-240 VAC • 3 parts: UPS (switched-mode power supply) and 2 x batteries • Output voltage, output current: 24 VDC/3 A • Temperature range: -10 °C to 40 °C • Function display: LED • Advantage: Replaces line voltage power supply; ensures a reliable power supply to the system for several hours. Suitable for use in conjunction with a motorized lock.

Important: Select the power supply based on the properties of the motorized lock.

Each unused core must be insulated separately.

If an intercom is used to open the door, the following points must be noted: The connection for the door opener signal (blue and gray) should be established within the secured zone (inside the house) in order to prevent tampering. The electrician should use a suitable door station relay for this purpose.
